PROFILE

Developer with a broad business perspective, used to understanding operational needs and turning them into efficient technology solutions. My goal is to join a structured product team where I can work alongside experienced professionals, raise my technical level in architecture and best practices, and bring my results-driven approach.

PROFESSIONAL EXPERIENCE

Cambren SRL Full-Stack Developer | April 2026 — Present

- **ERP development (SGC):** Designed and built *end-to-end* the management system that centralizes the company's operations, replacing multiple Excel spreadsheets. The system has 6 modules, a relational model of 121 entities and 55 tRPC routers.
- **Architecture and tech stack:** Implemented a *type-safe* backend with Next.js, tRPC, Prisma ORM and Zod, with a React 19 and Tailwind CSS 4 interface. Designed access control as a source of truth with 114 granular permissions. Continuous deployment on Vercel and testing of critical logic with Vitest.
- **Key integrations:** Automated electronic invoicing by building an end-to-end integration with the ARCA API (Argentina's tax authority, formerly AFIP).
- **AI innovation:** Built and integrated an internal AI assistant (Vercel AI SDK + Claude) with *tool-calling* capabilities to interact dynamically with the system's data.

Finance and Treasury Analyst | January 2026 — April 2026

- Payroll processing for a workforce of more than 30 employees.
- Management of supplier payments, invoice reconciliation and daily cash handling.
- Direct coordination with the accounting firm to ensure regulatory compliance and a month-end close with no discrepancies.

E-commerce and Customer Service Lead | May 2025 — January 2026

- Led the launch of the company's online store from scratch (catalog, shipping setup, payment gateways and after-sales) on Tienda Nube.
- The digital channel became the top revenue generator of the entire sales team.

EDUCATION AND CERTIFICATIONS

- **Systems Analyst:** Universidad del Salvador — 2023 to 2026 (graduated)
- **Computer Engineering:** Universidad del Salvador — 2023 to 2027 (in progress)
- **Certification:** Cybersecurity — Google (SIEM, vulnerability analysis, regulatory compliance)
- **Languages:** Spanish (native) · English (advanced) · Italian (basic)

TECHNOLOGIES

- **Languages:** TypeScript, JavaScript, Java, Python, C#, C, SQL, HTML, CSS.
- **Frontend:** Next.js 16, React 19, Tailwind CSS 4, shadcn/ui, TanStack Query / Table, React Hook Form, Zustand
- **Backend and data:** Node.js, tRPC, Prisma ORM, Zod, NextAuth v5, PostgreSQL, MySQL, Hibernate / HQL, REST API, SOAP
- **AI, testing and tooling:** Vercel AI SDK, Claude API, Vitest, Testing Library, ESLint, Git, GitHub, Vercel, Linux, UML
- **Integrations:** ARCA (electronic invoicing), Tienda Nube, Google Sheets API, Vercel Blob, ExcelJS
